

···▲·· Clean
 ---◆--- Same-RMS noise
 ---×--- Raw imperfection
 ---■--- Static calibration
 ---●--- SDIL

(a) Censored cost to target
SDIL/static = 0.77 at 2,048 edges

(b) Censored cost to target
SDIL/static = 1.53 at 2,048 edges

Non-successes receive the 600-epoch horizon; SDIL counts task + neutral reads; static calibration includes 16 edgewise reads.
